

As a resident of a small rural area K-Love service is vital at keeping me informed about local events of interest to me. The family-friendly programming is a positive and encouraging source of entertainment for our family. Without K-Love we would not have the family-friendly choice on radio. There are many influences all around us and we are thankful to have a choice that we feel upholds some of the values we hold dear and feel comfortable allowing our children access to daily. Thanks for your consideration in this important service K-Love provides our entire family.
